

Wastewater

Biological

Advanced Nutrient Removal: BOD, TSS, ammonia, total nitrogen and phosphorus removal

AnoxKaldness eXeno™

AnoxKaldness™ IFAS

AnoxKaldness LagoonGuard 0°™

AnoxKaldness™ MBBR

AnoxThane™

ANITA™ Mox Deammonification

BIOSTYR® BAF

BIOSTYR® Duo BAF+MBBR

NEOSEP® MBR

Oxidation Ditches: A/O®, A²/O, An/O

Phased Biological Processes:

Bio-Denipho™

Bio-Denitro™

Double Ditch

Triple Ditch

CSO/SSO

High rate treatment of wet weather flows, biological treatment and solids removal

ACTIFLO® Clarifier

BIOACTIFLO™ Biological Clarifier

BIOSTYR® BAF

Hydrotech Discfilter/Drumfilter

Tertiary Treatment

TSS and phosphorus removal, water reuse and turbidity reduction

ACTIFLO® Clarifier

Hydrotech Discfilter/Drumfilter

Primary Treatment

Removal of nutrients and organic matter with an integrated wastewater treatment approach

ACTIFLO® Clarifier

Hydrotech Discfilter/Drumfilter

Drinking Water

Clarification/Filtration

NOM, TOC, color, turbidity, solids, algae, pathogens and metals removal, taste and odor, prevention of disinfection by-products formation

ACTIFLO® Carb

ACTIFLO® Clarifier

ACTIFLO® Pack

ACTIFLO® Softening

Dusenflo™ Gravity Filter

Softening

Total hardness reduction and alkalinity reduction

ACTIFLO® Softening

Actina™ Pellet Softening

Biosolids and BioEnergy

Biosolids related treatments that meet Class A and/or provide sustainable solutions

BioCon™ ERS PFAS Destruction
BioCon™ Thermal Belt Dryer
BioMet™ Co-digestion
BioThelys™ Thermal Hydrolysis

Ecrusor™ Depackaging
Struvia™ Struvite Removal
ANITA™ Mox Deammonification
Hydrotech Drumfilter for Primary

Groundwater Treatment and PFAS Pre-treatment

Softening Pretreatment

Standard design to ensure high performance while providing lowest life cycle costs

ACTIFLO® Softening
Actina™ Pellet Softening
IONSOFT™
Multiflo™ Softening

Organics, Nitrate, Turbidity Removal

Drinking water pretreatment technologies to remove contaminants and ensure a clean water supply

ACTIFLO® & ACTIFLO® Carb
Biological Treatment for Nitrates
Filtraflo™ & Filtraflo™ Carb
Hydrotech Discfilter/Drumfilter

PFAS Treatment

Removal of PFAS compounds from groundwater, surface water, wastewater, biosolids, landfill leachate and industrial discharges

PFAS Removal

Filtraflo™ Carbon Filters
Hydrex™ Ion Exchange Resin & GAC
SIRION™ Reverse Osmosis

PFAS Destruction in Biosolids

BioCon™ ERS PFAS Destruction
